OBJECTIVE

A passionate and driven Bachelor of Computer Applications (BCA) student at IME College, working toward becoming a skilled full-stack developer and Python developer. Currently diving deep into DevOps, Next.js, React.js, and Node.js. My focus is on building complete, real-world applications that actually solve problems — not just run in theory.

EDUCATION

Bachelor of Computer Application, CCS University 2024 – 2027

SKILLS

Technical Skills: JavaScript, Python, C

Frameworks / Technologies: Node.js, React.js, Next.js, HTML, CSS, Firebase, MongoDB, MySQL

Tools: VS Code, Git, GitHub, Docker, AWS

EXPERIENCE

Full Stack Developer May 2025 – Aug 2025

Razorse Software Pvt. Ltd — Delhi, India

- Co-founded a small web dev team with a friend to build custom websites for local clients. Handled everything from design to deployment using the MERN stack.

Fullstack Developer May 2024 – Present

Fiverr, Freelancer — Delhi, India

- Working as a freelance full-stack developer, building complete web apps using MongoDB, Express.js, React, Next.js, and Node.js. Handled everything from front-end UI to back-end APIs and deployment.

PROJECTS

- AlgoAnalyzer** — A full-stack algorithm visualizer built with React and Express. Select an algorithm, enter your input, and step through every operation while watching the exact line of code highlight in real time — in Java and C++.
- SyncNote** — A full-stack real-time collaborative notes application where multiple users can create, edit, and share notes simultaneously. Built with the MERN stack, Socket.io, Yjs, and TipTap.
- DocConverter** — A web app to convert files between PDF, Word, Excel, Images, and HTML formats using a Python + Flask backend and a modern frontend built with Next.js and Tailwind CSS.
